"I have been fortunate to witness and learn from the work of Lilly Irvin-Vitela, for the past 6 years, and experience her passion for serving the needs of diverse populations.

Lilly is the personification of cultural competence. She is skillful in accommodating the diverse needs of people and in recognizing the importance of multicultural identities. Her rich cross-cultural knowledge is the product of her own personal experiences and family values, as well as those of the people with whom she interacts because her capacity to learn from the experiences of others.

Lilly understands well the role that culture plays in the helping process and uses this knowledge to make services available to a broader society. She has a gift for making people feel valued and for recognizing their strengths.

Her training programs are designed to advance cultural competence and are delivered in a respectful, informed and competent communication style that resonates with people from diverse backgrounds."
